

Never Been Any Reason

By Head East

sus or s under notes = sustain, or more like a whole note

↓ ↑ indicates slide up or down v - Hammer ^ - Pull Off

This tablature is very basic and only highlights the main structure, the song repeats the main verse and chorus a couple times, the bass solo was more important, because when modified it's also the chorus. The main verse also is played slightly different during the song each time, improvisation is necessary.
